## USING LANGUAGE LINKS WISELY

Everyone knows that information is a click away these days. How do you decide where to look? Language learners have an array of options available to them on the Internet. Just think of the many possibilities from finding the meaning of a word to translating a whole sentence!

One thing to keep in mind is that a lot of the content out there may not have all the information you're looking for. Also, some of the links may be broken or outdated. Here are some links that have been around for awhile and can be of help when studying Spanish.

[www.conjuguemos.com](http://www.conjuguemos.com)

[www.studyspanish.com](http://www.studyspanish.com)

[www.duolingo.com](http://www.duolingo.com)

Keep in mind that these resources have some free stuff for you to enjoy but that they have charges for their premium services. Again, they are good sources if you are beginning to study Spanish.

### SUMMER SPANISH

Are you looking for a fun one-month Spanish course for beginners that only meets twice a week? DSA will be offering a course starting in June for those of you who want to get some basic Spanish language skills. Contact us for more info!

### ENGLISH LESSONS

Are you or someone you know looking for ways to improve your English language skills? We have specialized language training for non-native English speakers. Whether you are in the United States temporarily or working for one of the many multinational companies in the area.

### ONSITE LANGUAGE TRAINING

DSA will come to you to offer you the best in language training. No matter how big your language needs are, we will work with you to ensure that you get the best language training in the Tri-Stare area at affordable prices.
